

SUBMITTAL SHEET

- **PIPECONX Universal Pipe Connectors** are manufactured from elastomeric materials that comply with the applicable requirements of ASTM C 1173-2008.
- **PIPECONX Couplings** allow you to connect same and dissimilar pipe, quickly and easily. Once installed, you are assured of a leak proof, chemical resistant connection that is impervious to roots and unaffected by soil condition. Maximum test pressure is 4.3 psi.
- **Durometer Hardness Testing** – PIPECONX Universal Pipe Connectors meet or exceed the requirements of ASTM C 1173-2008 to have a durometer (hardness) of 50 – 75 using test method D2240.
- **Marking** – Each coupling shall be marked with the manufacturer's name or trademark. The type and size of pipe for which the coupling is intended or the manufacturer's product number shall be marked on or attached to each coupling.
- **Temperature Range** – PIPECONX have a recommended temperature range between -20 and +180 degrees Fahrenheit.
- **Stainless Steel Hose Clamps** – The band, housing, and screw on PIPECONX hose clamps are made from 300 series stainless steel. They are tested to meet the required torque of 60" lbs.
- **Stainless Steel Shear Ring** – All components are manufactured from 300 series stainless steel including the band, housing, screw, shield and eyelet.
