according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: August 22, 2020

	(Cont'd. of page
P220	Keep/Store away from clothing/combustible materials.
P221	Take any precaution to avoid mixing with combustibles.
P260	Do not breathe mist/vapors/spray.
P264	Wash thoroughly after handling.
P270	Do not eat, drink or smoke when using this product.
P280	Wear protective gloves/protective clothing/eye protection/face protection.
P301+P330+P3	31 If swallowed: Rinse mouth. Do NOT induce vomiting.
	53 If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin w water/shower.
P304+P340	IF INHALED: Remove person to fresh air and keep comfortable for breathing.
P305+P351+P3	38 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses present and easy to do. Continue rinsing.
P310	İmmediately call a poison center/doctor.
P363	Wash contaminated clothing before reuse.
P370+P378	In case of fire: Use for extinction: Water.
P405	Store locked up.
P501	Dispose of contents/container in accordance with local/regional/national/internatio regulations.

3 Composition/information on ingredients

· Chemical characterization: Mixtures

· Components:

7732-18-5 Water

7722-84-1 hydrogen peroxide

- [{	50	Ĵх.	Ē	ia.	1.	H27	1

3	Skin	Corr.	1A,	H314
---	------	-------	-----	------

🔥 Acute Tox. 4, H302; Acute Tox. 4, H332; STOT SE 3, H335

· Additional information:

For the listed ingredient(s), the identity and/or exact percentage(s) are being withheld as a trade secret. For the wording of the listed Hazard Statements, refer to section 16.

4 First-aid measures

[•] Description of first aid measures

· After inhalation:

Supply fresh air. Provide oxygen treatment if affected person has difficulty breathing. If experiencing respiratory symptoms: Call a poison center/doctor. • After skin contact: Immediately remove any clothing soiled by the product. Immediately rinse with water. If skin irritation continues, consult a doctor. Seek immediate help for blistering or open wounds. · After eye contact: Protect unharmed eye. Remove contact lenses if worn.

(Cont'd. on page 3)

70%

30%

according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: August 22, 2020

Trade name: Hydrogen Peroxide 30% (Cont'd. of page 2) Rinse opened eye for 15 to 20 minutes under running water. Then consult a doctor. After swallowing: Rinse out mouth and then drink plenty of water. Do not induce vomiting; immediately call for medical help. Most important symptoms and effects, both acute and delayed: Breathing difficulty Couahina Caustic effect on skin and mucous membranes. Strong irritant with the danger of severe eye injury. Gastric or intestinal disorders when ingested. Nausea in case of ingestion. Danger: Causes severe skin burns and eve damage. May be harmful if inhaled. Harmful if swallowed. Indication of any immediate medical attention and special treatment needed: Medical supervision for at least 48 hours. If necessary oxygen respiration treatment.

5 Fire-fighting measures

· Extinguishing media

• Suitable extinguishing agents:

Use fire fighting measures that suit the environment. Water

· For safety reasons unsuitable extinguishing agents: None.

- Special hazards arising from the substance or mixture May intensify fire; oxidizer.
- Advice for firefighters
- Protective equipment:

Wear self-contained respiratory protective device.

Wear fully protective suit.

• Additional information: Cool endangered receptacles with water spray.

6 Accidental release measures

[•] Personal precautions, protective equipment and emergency procedures

Wear protective equipment. Keep unprotected persons away.

Ensure adequate ventilation.

Take any precaution to avoid mixing with combustibles.

Keep away from ignition sources.

For large spills, use respiratory protective device against the effects of fumes/dust/aerosol.

Environmental precautions

Do not allow to enter sewers/ surface or ground water.

Inform respective authorities in case of seepage into water course or sewage system.

Methods and material for containment and cleaning up

Absorb with non-combustible liquid-binding material (sand, diatomite, acid binders, universal binders). Send for recovery or disposal in suitable receptacles.

Reference to other sections

(Cont'd. on page 4)

according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: August 22, 2020

Trade name: Hydrogen Peroxide 30%

(Cont'd. of page 3)

See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

7 Handling and storage

[·] Handling

Precautions for safe handling:

Prevent formation of aerosols.

Avoid splashes or spray in enclosed areas. Use only in well ventilated areas.

Keep away from heat and direct sunlight.

Take any precaution to avoid mixing with combustibles.

· Information about protection against explosions and fires:

Contact with combustible material may cause fire.

Keep respiratory protective device available.

• Conditions for safe storage, including any incompatibilities

• Requirements to be met by storerooms and receptacles:

Provide ventilation for receptacles.

Store in a cool location.

Store only in the original receptacle.

Information about storage in one common storage facility:

Store away from foodstuffs.

Store away from flammable substances.

Do not store together with reducing agents, heavy-metal compounds, acids and alkalis.

• Further information about storage conditions:

Protect from heat and direct sunlight.

Keep containers tightly sealed.

Specific end use(s) No relevant information available.

8 Exposure controls/personal protection

Control parameters

Components with limit values that require monitoring at the workplace:

The following constituent is the only constituent of the product which has a PEL, TLV or other recommended exposure limit.

7722-84-1 hydrogen peroxide

PEL (USA)	Long-term value: 1.4 mg/m³, 1 ppm
REL (USA)	Long-term value: 1.4 mg/m³, 1 ppm
TLV (USA)	Long-term value: 1.4 mg/m³, 1 ppm
EL (Canada)	Long-term value: 1 ppm
EV (Canada)	Long-term value: 1.4 mg/m³, 1 ppm
LMPE (Mexico)	Long-term value: 1 ppm
	A3

• Exposure controls

Viscosity Dynamic: Kinematic: Other information	Not determined. Not determined. No relevant information available.	
Stability and reactivity		

• Thermal decomposition / conditions to be avoided:

No decomposition if used and stored according to specifications.

To avoid thermal decomposition, do not overheat.

[•] Possibility of hazardous reactions

Reacts spontaneously with alkaline metals.

Reacts with reducing agents.

Acts as an oxidizing agent on organic materials such as wood, paper and fats.

May produce violent reactions with bases and numerous organic substances including alcohols and amines.

Conditions to avoid

Keep/Store away from clothing/combustible materials.

Keep away from heat and direct sunlight.

Incompatible materials

Reducing agents.

Flammable materials.

Strong acids and alkali.

· Hazardous decomposition products Oxygen

12 Ecological information

- [·] Toxicity
- Aquatic toxicity The material is harmful to the environment.
- · Persistence and degradability No relevant information available.
- · Bioaccumulative potential: No relevant information available.
- Mobility in soil: No relevant information available.
- Ecotoxical effects:
- · Remark: Harmful to fish
- [•] Additional ecological information

(Cont'd. on page 8)

according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: August 22, 2020

Trade name: Hydrogen Peroxide 30%

· General notes:

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

Harmful to aquatic organisms

Other adverse effects No relevant information available.

13 Disposal considerations

[·] Waste treatment methods

· Recommendation:

Small amounts may be diluted with plenty of water and washed away. Dispose of bigger amounts in accordance with Local Authority requirements.

Can be burned with household garbage after consulting with the waste disposal facility operator and the pertinent authorities and adhering to the necessary technical regulations.

The user of this material has the responsibility to dispose of unused material, residues and containers in compliance with all relevant local, state and federal laws and regulations regarding treatment, storage and disposal for hazardous and nonhazardous wastes. Residual materials should be treated as hazardous.

[·] Uncleaned packagings

• Recommendation: Disposal must be made according to official regulations.

· Recommended cleansing agent: Water, if necessary with cleansing agents.
