Safety Data Sheet according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: June 04, 2020

1 Identification
· Product identifier
<ul> <li>Trade name: <u>Hydrochloric Acid, 3.0N</u></li> <li>Product code: HA6193-G</li> </ul>
<ul> <li>Recommended use and restriction on use</li> <li>Recommended use: Laboratory chemicals</li> <li>Restrictions on use: No relevant information available.</li> </ul>
<ul> <li>Details of the supplier of the Safety Data Sheet</li> <li>Manufacturer/Supplier: AquaPhoenix Scientific, Inc. 860 Gitts Run Road Hanover, PA 17331 USA Tel +1 (717)632-1291 Toll-Free: (866)632-1291 info@aquaphoenixsci.com</li> <li>Distributor: AquaPhoenix Scientific 860 Gitts Run Road, Hanover, PA 17331 (717) 632-1291</li> </ul>
Emergency telephone number: ChemTel Inc. (800)255-3924 (North America) +1 (813)248-0585 (International)
2 Hazard(s) identification
Classification of the substance or mixtureMet. Corr.1H290 May be corrosive to metals.Skin Corr. 1BH314 Causes severe skin burns and eye damage.Eye Dam. 1H318 Causes serious eye damage.STOT SE 3H335 May cause respiratory irritation.
<ul> <li>Label elements</li> <li>GHS label elements The product is classified and labeled according to the Globally Harmonized System (GHS).</li> <li>Hazard pictograms:</li> <li>GHS05 GHS07</li> <li>Signal word: Danger</li> <li>Hazard statements: H290 May be corrosive to metals. H314 Causes severe skin burns and eye damage. H335 May cause respiratory irritation.</li> </ul>

Precautionary statements:

P234 Keep only in original container.

(Cont'd. on page 2)

according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: June 04, 2020

#### Trade name: Hydrochloric Acid, 3.0N (Cont'd. of page 1) P260 Do not breathe dusts or mists. P264 Wash thoroughly after handling. P271 Use only outdoors or in a well-ventilated area. P280 Wear protective gloves/protective clothing/eye protection/face protection. P301+P330+P331 If swallowed: Rinse mouth. Do NOT induce vomiting. P303+P361+P353 If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. P310 P363 Wash contaminated clothing before reuse. Absorb spillage to prevent material damage. P390 Store in a well-ventilated place. Keep container tightly closed. P403+P233 P405 Store locked up. Store in corrosive resistant container with a resistant inner liner. P406 P501 Dispose of contents/container in accordance with local/regional/national/international regulations.

• Other hazards There are no other hazards not otherwise classified that have been identified.

## 3 Composition/information on ingredients

#### · Chemical characterization: Mixtures

## · Components:

e e inpenier		
7732-18-5	Water	75-90%
7647-01-0	Hydrochloric acid	10-25%
	Met. Corr.1, H290; Skin Corr. 1B, H314; Eye Dam. 1, H318	
	Acute Tox. 4, H302; STOT SE 3, H335	

#### · Additional information:

For the listed ingredient(s), the identity and/or exact percentage(s) are being withheld as a trade secret. For the wording of the listed Hazard Statements, refer to section 16.

## 4 First-aid measures

#### Description of first aid measures

· General information: Immediately remove any clothing soiled by the product.

· After inhalation: Supply fresh air; consult doctor in case of complaints.

#### · After skin contact:

Immediately wash with water and soap and rinse thoroughly.

If skin irritation continues, consult a doctor.

Seek immediate help for blistering or open wounds.

#### · After eye contact:

Protect unharmed eye.

Remove contact lenses if worn.

Rinse opened eye for several minutes under running water. Then consult a doctor.

#### · After swallowing:

Rinse out mouth and then drink plenty of water.

(Cont'd. on page 3)

according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: June 04, 2020

Trade name: Hydrochloric Acid, 3.0N

(Cont'd. of page 2)

Do not induce vomiting; immediately call for medical help. • Most important symptoms and effects, both acute and delayed: Eye damage. Acidosis Coughing Strong caustic effect on skin and mucous membranes. May cause respiratory irritation. Gastric or intestinal disorders when ingested. • Danger: Danger of gastric perforation. Causes serious eye damage. • Indication of any immediate medical attention and special treatment needed: If necessary oxygen respiration treatment. If medical advice is needed, have product container or label at hand.

## 5 Fire-fighting measures

- <sup>•</sup> Extinguishing media
- Suitable extinguishing agents: Use fire fighting measures that suit the environment.
- For safety reasons unsuitable extinguishing agents: No relevant information available.
- Special hazards arising from the substance or mixture
- During heating or in case of fire poisonous gases are produced.
- <sup>•</sup> Advice for firefighters

#### • Protective equipment:

Wear self-contained respiratory protective device.

Wear fully protective suit.

Additional information: Cool endangered receptacles with water spray.

## 6 Accidental release measures

## <sup>•</sup> Personal precautions, protective equipment and emergency procedures

For large spills, use respiratory protective device against the effects of fumes/dust/aerosol. Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation.

# Environmental precautions

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

## Methods and material for containment and cleaning up

Use limestone to neutralize and/or absorb spill.

Send for recovery or disposal in suitable receptacles.

## Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

# 7 Handling and storage

Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing.

Wash hands before breaks and at the end of work.

Avoid contact with the eyes and skin.

• Engineering controls: Provide adequate ventilation.

· Breathing equipment: Use suitable respiratory protective device when high concentrations are present.

· Protection of hands:

#### Trade name: Hydrochloric Acid, 3.0N

(Cont'd. of page 4)

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. **Material of gloves** 

Natural rubber, NR

Fluorocarbon rubber (Viton)

Nitrile rubber, NBR

Sensibilization by the components in the glove materials is possible.

Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

- $\cdot$  Not suitable are gloves made of the following materials:  $\mathsf{PVC}$  gloves
- · Eye protection:

Safety glasses

Follow relevant national guidelines concerning the use of protective eyewear.

- · Body protection: Acid resistant protective clothing.
- · Limitation and supervision of exposure into the environment

No relevant information available.

Physical and chemical prop	erties		
Information on basic physical and chemical properties			
Appearance:			
Form:	Liquid		
Color:	Clear		
Odor:	Not determined.		
Odor threshold:	Not determined.		
pH-value:	Not determined.		
Melting point/Melting range:	Not determined.		
Boiling point/Boiling range:	102-110 °C (215.6-166 °F)		
Flash point:	The product is not flammable.		
Flammability (solid, gaseous):	Not applicable.		
Auto-ignition temperature:	Not determined.		
Decomposition temperature:	Not determined.		
Danger of explosion:	Product does not present an explosion hazard.		
Explosion limits			
Lower:	Not determined.		
Upper:	Not determined.		
Oxidizing properties:	Not determined.

ade name: Hydrochloric Acid, 3.0N		
		(Cont'd. of page 5
· Vapor pressure at 20 °C (68 °F):	23 hPa (17.3 mm Hg)	
· Density at 20 °C (68 °F):	1.03 g/cm³ (8.6 lbs/gal)	
· Relative density:	Not determined.	
· Vapor density:	Not determined.	
· Evaporation rate:	Not determined.	
· Solubility in / Miscibility with		
Water:	Fully miscible.	
· Partition coefficient (n-octanol/wat	er): Not determined.	
· Viscosity		
Dynamic:	Not determined.	
Kinematic:	Not determined.	
• Other information	No relevant information available.	

## 10 Stability and reactivity

· Reactivity: No relevant information available.

- · Chemical stability: Stable under normal temperatures and pressures.
- Thermal decomposition / conditions to be avoided:
- No decomposition if used and stored according to specifications.
- <sup>•</sup> Possibility of hazardous reactions
- Corrosive action on metals.
- Reacts with alkali (lyes).
- Reacts with base metals forming hydrogen.

Toxic fumes may be released if heated above the decomposition point.

- Conditions to avoid No relevant information available.
- <sup>·</sup> Incompatible materials
- Metals.
- Alkalis

Strong oxidizers such as perchlorates, bromates, and nitrates; hydrofluoric acid.

- · Hazardous decomposition products
- Chlorine compounds
- Hydrogen

## 11 Toxicological information

## <sup>·</sup> Information on toxicological effects

• Acute toxicity:

· LD/LC50 values that are relevant for classification:

ATE (Acute Toxicity Estimate)

Oral LD50 8249 mg/kg (rabbit)

Primary irritant effect:

· On the skin: Strong caustic effect on skin and mucous membranes.

· On the eye: Strong caustic effect.

(Cont'd. on page 7)

(Cont'd. of page 6)

3

Trade name: Hydrochloric Acid, 3.0N

· Sensitization: Based on available data, the classification criteria are not met.

· IARC (International Agency for Research on Cancer):

7647-01-0 Hydrochloric acid

#### • NTP (National Toxicology Program):

None of the ingredients are listed.

#### **OSHA-Ca** (Occupational Safety & Health Administration):

None of the ingredients are listed.

Probable route(s) of exposure:

Ingestion.

Inhalation.

Eye contact.

# Skin contact.

# Acute effects (acute toxicity, irritation and corrosivity):

Causes severe skin burns and eye damage.

May cause respiratory irritation.

- Germ cell mutagenicity: Based on available data, the classification criteria are not met.
- · Carcinogenicity: Based on available data, the classification criteria are not met.

• **Reproductive toxicity:** Based on available data, the classification criteria are not met.

- · STOT-single exposure: May cause respiratory irritation.
- STOT-repeated exposure: Based on available data, the classification criteria are not met.
- · Aspiration hazard: Based on available data, the classification criteria are not met.

## **12 Ecological information**

#### <sup>·</sup> Toxicity

· Aquatic toxicity No relevant information available.

- · Persistence and degradability No relevant information available.
- · **Bioaccumulative potential:** No relevant information available.
- Mobility in soil: No relevant information available.
- <sup>•</sup> Additional ecological information
- · General notes:

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

Other adverse effects No relevant information available.

## 13 Disposal considerations

## <sup>•</sup> Waste treatment methods

#### · Recommendation:

Must not be disposed of together with household garbage. Do not allow product to reach sewage system. The user of this material has the responsibility to dispose of unused material, residues and containers in compliance with all relevant local, state and federal laws and regulations regarding treatment, storage and disposal for hazardous and nonhazardous wastes. Residual materials should be treated as hazardous.

#### <sup>·</sup> Uncleaned packagings

• **Recommendation:** Disposal must be made according to official regulations.

· Recommended cleansing agent: Water, if necessary with cleansing agents.

according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations
