# 4 First-aid measures

# <sup>•</sup> Description of first aid measures

- · General information: No special measures required.
- After inhalation: Supply fresh air; consult doctor in case of complaints.
- · After skin contact:

Immediately remove any clothing soiled by the product.

Immediately rinse with water.

If skin irritation continues, consult a doctor.

- After eye contact:
- Protect unharmed eye.

Remove contact lenses if worn.

Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

After swallowing:

Rinse out mouth and then drink plenty of water.

Do not induce vomiting; immediately call for medical help.

Most important symptoms and effects, both acute and delayed:

Gastric or intestinal disorders when ingested.

Causes eye irritation.

• **Danger:** No relevant information available.

· Indication of any immediate medical attention and special treatment needed:

If medical advice is needed, have product container or label at hand.

# **5** Fire-fighting measures

# • Extinguishing media

• Suitable extinguishing agents: Use fire fighting measures that suit the environment.

- For safety reasons unsuitable extinguishing agents: No relevant information available.
- Special hazards arising from the substance or mixture

Formation of toxic gases is possible during heating or in case of fire.

### · Protective equipment:

Wear self-contained respiratory protective device. Wear fully protective suit.

# 6 Accidental release measures

#### • Personal precautions, protective equipment and emergency procedures Ensure adequate ventilation.

Wear protective equipment. Keep unprotected persons away.

# **Environmental precautions**

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

# Methods and material for containment and cleaning up

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Place in properly marked container for disposal.

# **Reference to other sections**

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

# 7 Handling and storage

# <sup>·</sup> Handling

# · Precautions for safe handling:

Use only in well ventilated areas.

Avoid splashes or spray in enclosed areas.

Prevent formation of aerosols.

· Information about protection against explosions and fires: No special measures required.

# <sup>•</sup> Conditions for safe storage, including any incompatibilities

• Requirements to be met by storerooms and receptacles: Store only in the original receptacle.

· Information about storage in one common storage facility:

Store away from foodstuffs.

Store away from metals.

Do not store together with oxidizing and acidic materials.

• Further information about storage conditions:

Keep containers tightly sealed.

Store in cool, dry conditions in well sealed receptacles.

Specific end use(s) No relevant information available.

# 8 Exposure controls/personal protection

# · Control parameters

· Components with limit values that require monitoring at the workplace:

The following constituent is the only constituent of the product which has a PEL, TLV or other recommended exposure limit.

# 10 Stability and reactivity

• **Reactivity:** No relevant information available.

• Chemical stability: Stable under normal temperatures and pressures.

Thermal decomposition / conditions to be avoided:

No decomposition if used and stored according to specifications.

<sup>•</sup> Possibility of hazardous reactions

Reacts with strong acids and oxidizing agents.

Toxic fumes may be released if heated above the decomposition point.

Conditions to avoid Excessive heat.

# **11** Toxicological information

# Information on toxicological effects

· Acute toxicity: Based on available data, the classification criteria are not met.

# · LD/LC50 values that are relevant for classification:

12125-02-9 ammonium chloride

Oral LD50 1650 mg/kg (rat)

#### Primary irritant effect:

• On the skin: Based on available data, the classification criteria are not met.

· On the eye: Causes eye irritation.

• Sensitization: Based on available data, the classification criteria are not met.

# · IARC (International Agency for Research on Cancer):

None of the ingredients are listed.

#### • NTP (National Toxicology Program):

None of the ingredients are listed.

### · OSHA-Ca (Occupational Safety & Health Administration):

None of the ingredients are listed.

## · Probable route(s) of exposure:

Ingestion.

Inhalation.

Eye contact.

Skin contact.

• Acute effects (acute toxicity, irritation and corrosivity): Causes serious eye irritation.

· Repeated dose toxicity: No relevant information available.

• Germ cell mutagenicity: Based on available data, the classification criteria are not met.

· Carcinogenicity: Based on available data, the classification criteria are not met.

- Reproductive toxicity: Based on available data, the classification criteria are not met.
- STOT-single exposure: Based on available data, the classification criteria are not met.
- STOT-repeated exposure: Based on available data, the classification criteria are not met.

• Aspiration hazard: Based on available data, the classification criteria are not met.

• Mobility in soil: No relevant information available.

# <sup>•</sup> Additional ecological information

· General notes:

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

· Other adverse effects No relevant information available.

# **13 Disposal considerations**

# <sup>·</sup> Waste treatment methods

# · Recommendation:

Must not be disposed of together with household garbage. Do not allow product to reach sewage system. The user of this material has the responsibility to dispose of unused material, residues and containers in compliance with all relevant local, state and federal laws and regulations regarding treatment, storage and disposal for hazardous and nonhazardous wastes.

# <sup>·</sup> Uncleaned packagings

- Recommendation: Disposal must be made according to official regulations.
- · Recommended cleansing agent: Water, if necessary with cleansing agents.
