2 Hazard(s) identification

# Classification of the substance or mixture

The product is not classified as hazardous according to the Globally Harmonized System (GHS).

- <sup>-</sup> Label elements
- · GHS label elements None.
- · Hazard pictograms: None.
- · Signal word: None.
- · Hazard statements: None.
- · Precautionary statements: None.

· Other hazards There are no other hazards not otherwise classified that have been identified.

Chemical characterization: Mixtures	
Components:	
637-03-6 phenylarsine oxide	0.0947%
Acute Tox. 3, H301; Acute Tox. 3, H331	
7732-18-5 Water	99.9053

(Cont'd. on page 2)

according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: October 14, 2020

Trade name: Phenylarsine Oxide, 0.00564N

(Cont'd. of page 1)

# 4 First-aid measures

# <sup>•</sup> Description of first aid measures

• After inhalation: Supply fresh air; consult doctor in case of complaints.

• After skin contact:

Immediately rinse with water.

If skin irritation is experienced, consult a doctor.

• After eye contact:

Remove contact lenses if worn.

Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

• After swallowing: Do not induce vomiting; immediately call for medical help.

• Most important symptoms and effects, both acute and delayed: No relevant information available.

· Danger: No relevant information available.

# · Indication of any immediate medical attention and special treatment needed:

No relevant information available.

# **5** Fire-fighting measures

· Extinguishing media

• Suitable extinguishing agents: Use fire fighting measures that suit the environment.

• For safety reasons unsuitable extinguishing agents: No relevant information available.

• Special hazards arising from the substance or mixture

Formation of toxic gases is possible during heating or in case of fire.

# Advice for firefighters

· Protective equipment:

Wear self-contained respiratory protective device.

Wear fully protective suit.

# 6 Accidental release measures

### • **Personal precautions, protective equipment and emergency procedures** Ensure adequate ventilation.

# • Environmental precautions

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

# Methods and material for containment and cleaning up

Wipe up small spills with paper towel and discard. For larger spills, add sawdust, chalk or other inert binding material, then sweep up and discard.

Dispose of the collected material according to regulations.

# Reference to other sections

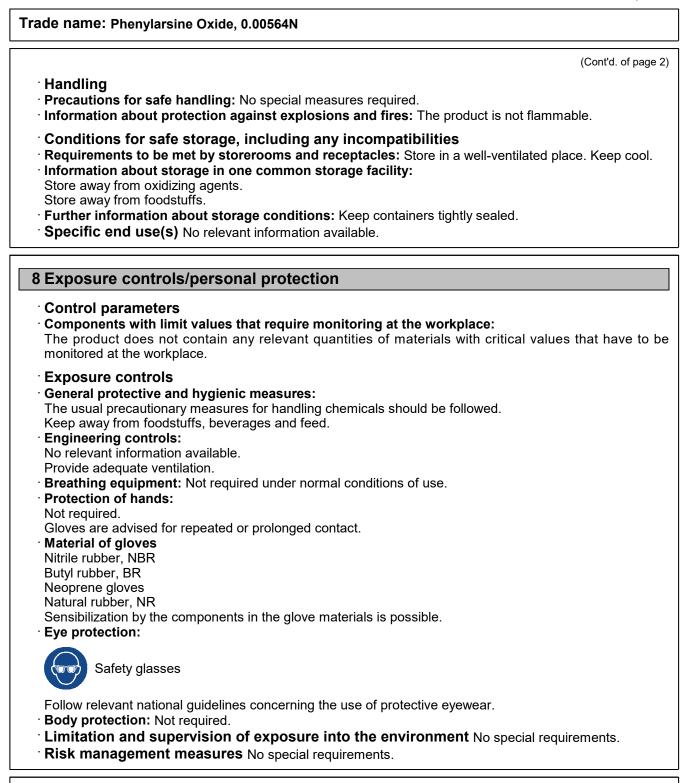

See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

# 7 Handling and storage

(Cont'd. on page 3)

according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: October 14, 2020

9 Physical and chemical properties

(Cont'd. on page 4)

according to OSHA HCS (29CFR 1910.1200) and WHMIS 2015 Regulations

Revision: October 14, 2020

### Trade name: Phenylarsine Oxide, 0.00564N (Cont'd. of page 3) Information on basic physical and chemical properties · Appearance: Form: Liquid Color: Colorless Odorless · Odor: · Odor threshold: Not determined. · pH-value: Not determined. • Melting point/Melting range: 0 °C (32 °F) · Boiling point/Boiling range: 100 °C (212 °F) · Flash point: Not applicable. · Flammability (solid, gaseous): Not applicable. • Auto-ignition temperature: Not determined. · Decomposition temperature: Not determined. • Danger of explosion: Product does not present an explosion hazard. · Explosion limits Lower: Not determined. Upper: Not determined. · Oxidizing properties: Non-oxidizing. · Vapor pressure at 20 °C (68 °F): 23 hPa (17.3 mm Hg) · Density at 20 °C (68 °F): 1 g/cm<sup>3</sup> (8.35 lbs/gal) · Relative density: Not determined. · Vapor density: Not determined. · Evaporation rate: Not determined. · Solubility in / Miscibility with Water: Fully miscible. · Partition coefficient (n-octanol/water): Not determined. · Viscosity Dynamic: Not determined. Kinematic: Not determined. Other information No relevant information available.

# 10 Stability and reactivity

• **Reactivity:** No relevant information available.

· Chemical stability: Stable under normal temperatures and pressures.

Thermal decomposition / conditions to be avoided:

No decomposition if used and stored according to specifications.

• **Possibility of hazardous reactions** Reacts with strong oxidizing agents.

· Conditions to avoid Excessive heat.

<sup>·</sup> Incompatible materials

Oxidizing agents.
