2 Hazard(s) identification	

The product is not classified as hazardous according to the Globally Harmonized System (GHS).

<sup>-</sup> Label elements

· GHS label elements Not regulated.

- · Hazard pictograms: Not regulated.
- Signal word: Not regulated.
- · Hazard statements: Not regulated.
- · Precautionary statements: Not regulated.

· Other hazards There are no other hazards not otherwise classified that have been identified.

# 3 Composition/information on ingredients • Chemical characterization: Mixtures • Components: 7732-18-5 Water 77447-40-7 Potassium chloride Eye Irrit. 2B, H320 <1%</td> • Additional information: For the listed ingredient(s), the identity and/or exact percentage(s) are being withheld as a trade secret. For the wording of the listed Hazard Statements, refer to section 16.

#### 4 First-aid measures

#### <sup>•</sup> Description of first aid measures

· General information: No special measures required.

- After inhalation: Supply fresh air; consult doctor in case of complaints.
- After skin contact:
- Rinse with warm water.

If skin irritation is experienced, consult a doctor.

#### • After eye contact:

Remove contact lenses if worn.

Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

#### • After swallowing:

Rinse out mouth and then drink plenty of water.

Do not induce vomiting; immediately call for medical help.

Most important symptoms and effects, both acute and delayed:

Gastric or intestinal disorders when ingested.

· Danger: No relevant information available.

· Indication of any immediate medical attention and special treatment needed:

No relevant information available.

#### 5 Fire-fighting measures

Extinguishing media

• Suitable extinguishing agents: Use fire fighting measures that suit the environment.

- For safety reasons unsuitable extinguishing agents: No relevant information available.
- · Special hazards arising from the substance or mixture
- Formation of toxic gases is possible during heating or in case of fire.
- Advice for firefighters
- · Protective equipment:

Wear self-contained respiratory protective device.

Wear fully protective suit.

#### 6 Accidental release measures

#### • Personal precautions, protective equipment and emergency procedures Ensure adequate ventilation.

#### • Environmental precautions

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

#### Methods and material for containment and cleaning up

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).

Clean the affected area carefully; suitable cleaners are:

Warm water

Dispose of the collected material according to regulations.

**Reference to other sections** 

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

#### 7 Handling and storage

- Handling
- · Precautions for safe handling: No special measures required.
- · Information about protection against explosions and fires: No special measures required.

#### · Conditions for safe storage, including any incompatibilities

- Requirements to be met by storerooms and receptacles: No special requirements.
- · Information about storage in one common storage facility: No relevant information available.
- Further information about storage conditions:

Keep containers tightly sealed.

- Store in cool, dry conditions in well sealed receptacles.
- **Specific end use(s)** No relevant information available.

#### 8 Exposure controls/personal protection

#### Control parameters

Components with limit values that require monitoring at the workplace:

The following constituent is the only constituent of the product which has a PEL, TLV or other recommended exposure limit.

#### • Exposure controls

General protective and hygienic measures:

The usual precautionary measures for handling chemicals should be followed.

Keep away from foodstuffs, beverages and feed.

- Engineering controls: Provide adequate ventilation.
- Breathing equipment: Not required under normal conditions of use.
- Protection of hands: Gloves not required under normal conditions of use.

#### · Material of gloves

Butyl rubber, BR

Fluorocarbon rubber (Viton)

Neoprene gloves

Nitrile rubber, NBR

Latex, nitrile or neoprene gloves are recommended.

· Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

Eye protection:

Safety glasses

Follow relevant national guidelines concerning the use of protective eyewear.

· Body protection: Protective work clothing

· Limitation and supervision of exposure into the environment No special requirements.

· Risk management measures No special requirements.

## 10 Stability and reactivity

• **Reactivity:** No relevant information available.

• Chemical stability: Stable under normal temperatures and pressures.

Thermal decomposition / conditions to be avoided:

No decomposition if used and stored according to specifications.

· Possibility of hazardous reactions No dangerous reactions known.

• Conditions to avoid Light, excess heat, dust generation, incompatible materials.

· Incompatible materials No relevant information available.

#### · Recommendation:

Smaller quantities can be disposed of with household waste.

Small amounts may be diluted with plenty of water and washed away. Dispose of bigger amounts in accordance with Local Authority requirements.

The user of this material has the responsibility to dispose of unused material, residues and containers in compliance with all relevant local, state and federal laws and regulations regarding treatment, storage and disposal for hazardous and nonhazardous wastes.

#### <sup>·</sup> Uncleaned packagings

• Recommendation: Disposal must be made according to official regulations.
