

# VITA-D-CHLOR™

## BENEFITS & FEATURES

- Fast, easy set-up with simple tablet dechlorination of potable water
- Compact and light-weight
- Suitable for most hydrant flushings
- Durable one-piece construction
- Brass 2.5" FNST swivel for fast connection to hydrant or hose
- Only 10 pounds with some tablets installed
- Holds up to 4 tablets, dissolving 1 tablet at a time for maximum efficiency
- Designed and tested for use with Vita-D-Chlor Tablets

## PROCEDURE

1. Securely thread the unit to the hydrant or flushing connection
2. Place 3 or 4 Vita-D-Chlor Tablets in the tablet chamber and secure the cap
3. Flush and test regularly for complete dechlorination

## ZDe-Chlorinator NEMA-200 Dechlorinating Diverter Tablet System

Cat#: V320-NEMA-200

## PERFORMANCE DATA

### CHLORINE LEVELS

0-4 ppm
