User Instructions:

1. **ODR&FOG™** removes FOG, odors & reactive molecules.
2. Shake **ODR&FOG™** powder directly on mats. Otherwise Shake powder into inlet waterfall or trowel to distribute Evenly across well's surface water. This dust is important: It provides maximum surface area, efficiently consuming Reactive molecules.
3. Jet in water or **ODR&FOG™** emulsion to mix **ODR&FOG™** With FOG mats & wastewater.
4. After 5-10 minutes of jetting/mixing, then pump the well Down. Scavenging odor & FOG removal continues Downstream.

Dosage:

For initial treatment dose 1-2 buckets every week for 3-4 weeks. Then maintain with dosing bi-weekly (and eventually, maybe Only monthly). With routine use, persistent presence builds Inside the infrastructure.

For moderate to heavy solid FOG. A high-water pressure hose Is best when adding water.

For further clarification please contact your sales rep.

Other Uses:

ODR&FOG™ can also be used at SSOs to remove odor and Consolidate escaped wastewater. Forms an effective matrix That's very easy to clean up (it won't kill the grass!).

Safety:

ODR&FOG™ is safe-to-handle. Rinse with soap & water to Remove from skin or eyes. If swallowed, drink water or milk to Flush/rinse (It's non-toxic). Wear dust mask to avoid breathing Dust. Slip & fall hazard on wet surfaces.
