

BO BOP - MAGNETIC VALVE BOX LIFTER

The U.S.SAWS Bo Bop features a more durable design with a stainless steel base. The Bo Bop lifts small water valve covers or metal electrical box covers. The magnetic lifter lets the user stop bending over to lift and remove covers.

Reduce finger and toe injuries with this lightweight deep-reach magnetic valve box lifter; the magnetic field penetrates lids' textured surfaces and allows the operator to lift the casting out of the way ergonomically. This Magnetic Lifter is designed to give the user a safe and efficient way to remove covers quickly, safely, and efficiently.

SAFETY YELLOW

STAINLESS STEEL BASE PLATE

EASY TO REMOVE

Features:

- Magnetically lifts valve boxes or electrical covers
- 25 lb lifting capacity
- Solid handle for easy pick up
- Safe and efficiently remove covers
- Magnetic field penetrates texture surfaces allowing the operator to lift lid
- Reduces finger and toe injuries

BO BOP	
Lifting Capacity	25 lbs
Magnets Used	1 Magnet
Aluminum Chassis	Safety Yellow
Unit Weight	8 lbs
Base Dimensions	4" x 2"
Part Number	US30398
