

# MINI T-CUTTERS

 P/N	 Hose Con.	 Minimum/GPM	 Pipe Diameter	 L x W Dimensions	 lbs. Weight	 Rear Jets	 Turbine Jets	 # Tier
1978	1/2"	8	2" - 4"	4.13" x 1.65"	1.54	6	3	2
1979	1/2"	8	2" - 4"	3.38" x 1.37"	0.88	6	3	2
1995	1/2"	8	2" - 4"	3.07" x 1.37"	0.88	6	3	2
1996	1/2"	8	2" - 4"	3.93" x 1.65"	1.32	6	3	2

## Mini turbine tools perfect for slight bends and lower pump outputs

Made from hardened stainless steel and designed for small pipes, **Mini T-Cutters** are high-efficiency turbine tools that effectively remove roots and deposits and open blockages. Their small size enables the Mini T Cutters to navigate around slight bends. Most uniquely, the cutters can be reduced to 3/8 " and 1/4" for lower pump outputs.
